

# PHOENIX-A

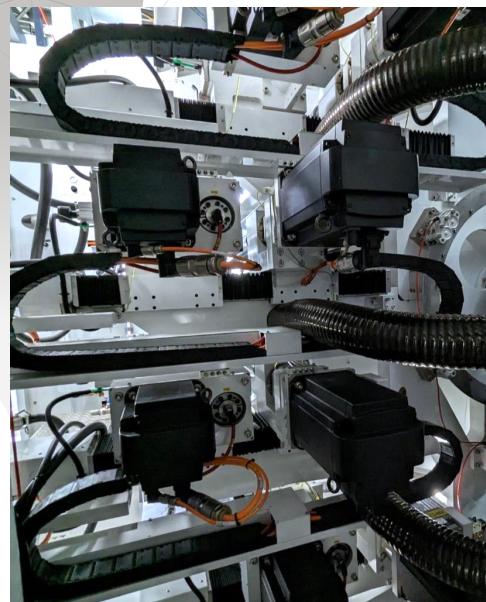

Entry-level Gearless CI  
Perfect for Short Run

**KYMC**

## Lightweight Solution with Advance CI Servo Controls

The PHOENIX-A is a gearless CI press equipped with servo motors at the CI section to allow for print precision and quick job change. The compact design of this model allows you to place the press in limited factory space, enabling you to upgrade equipment despite space constraints. If you are looking for a lightweight solution but with advance CI servo controls, this is the press for you.

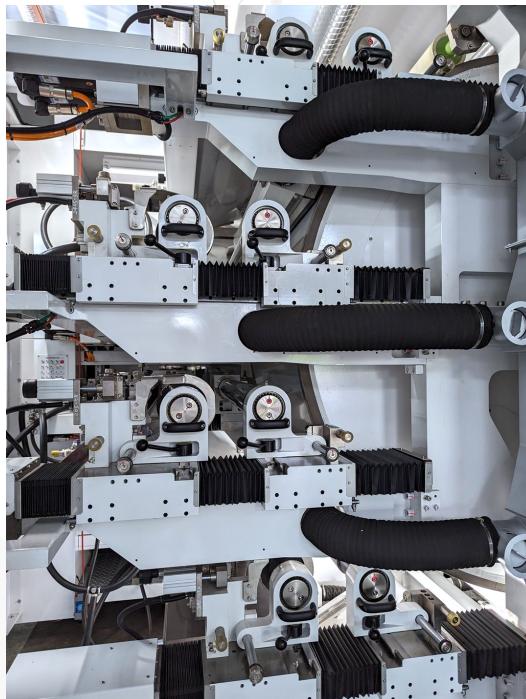

### Specifications

### PHOENIX

Number of Colors	8
Max Machine Speed	m/min <b>300</b> ft/min <b>984</b>
